Sniper - Lotto Download

■ An analysis tool for displaying lottery draws through graphs and charts. ■ Its filters are constantly being updated with data from the Japanese and Korean lotteries. ■ To play with, the free version is sufficient. If you want to play with more players, you need to pay, ■ It's a pity that you need to log in using a Google Account, and you can't display it on your phone without an Internet connection. ■ The tools are the same in the free version. However, some filters are available only in the premium version. ■ If you want to receive all updates on the premium version, a license key is required. ■ To report a bug, please fill the form on the bottom of the screen. If you want to provide feedback in detail, you can contact the developer. ■ By default, the views are displayed on the main screen. However, it is also possible to display them on a tab. ■ To have a pleasant experience, I ask you to enter in Japanese characters. ■ The premium version has been added to Google Play. ■ How to install ■ Install on a desktop computer. ■ When using on a tablet, you can set a window size manually. ■ To use it on Android smartphones and tablets, please install it to the Google Play. ■ If you can not install Google Play, you can also download and install on the desktop PC. ■ After installing, open and register it. ■ After registration, you can use on a smartphone or tablet. ■ How to use ■ Open the manager by selecting "Sniper-lotto". ■ After clicking on "Sniper-lotto", you can use it. ■ In the "Sniper-lotto" screen, you can select the "Global" and the "Standard" views. ■ The Global view displays the lottery numbers in each lottery draw. ■ The Standard view displays lottery numbers only in the Japanese and Korean lotteries. ■ Global view ■ The Global view displays lottery draws in chronological order. ■ Next, select the number of draws you want to display. ■ In the screen for the number of draws, select the "Date" and the "Chart Type". ■ The number of draws per month is set automatically, but you can change them. ■ The data for the chart is set automatically by day. ■ You can also set the month as "Year" and the "Year Type".
