Examples of such a monitored area include a home, a rented apartment, a traffic area, etc.

The so-called geofencing technique is a location-based technique for monitoring users' movements and geolocating the users' movements.

Geofencing is based on a user's programmed schedule, which may be provided to a device, so that the device is switched into an operation state in which measurement data concerning the user is recorded, and a geofencing

Morton Mickle answering questions at the "Throne Gate" National Book Awards Speaking of Hypocrisies: What an Awards gig it was at the Long Beach Playboy Mansion on April 7 at the National Book Awards! We were mobbed by about 400 fans, all jacked up on Musco's Elixir which produced an orgy of psychic symbiotic copulation. Mr. Greenleaf, our host, disguised as the Pharaoh was spiffed to death, & in the process was enthroned on the throne as the King.... Morton Mickle, Publisher This is a book which can do one thing as an aid to reading, reading, and reading and still more reading. If you have been at the preparation, you have read pages and pages and more pages of previously published books, and have been gaining from the use of these libraries and the information, you will find here a new employment. That is to it can be read at one sitting with the pleasure increasing with every succeeding page you read, and which you can read over and over again with the entire satisfaction of making new acquaintances. You will not come across a word you don't understand or which is difficult in this edition. But then, for a boy who has read, you have an old life in front of you, an old and dearer side to it. You will pass this in your library, between your Bookmarks, or you may tear it out, and secretly read it from time to time, and the more you read the better. You will eventually use the reading as a means of studying, which is the correct use of it. No other translation is a better help than this to do so, as you see more of what the original meant, and the writer (no matter how great he was in theology, philosophy, and poetry) shared your mistakes and your thoughts.
